DETAILED ACTION

Claims 1 and 2 have been canceled by the applicant.

Allowable Subject Matter

Claims 3-9 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record fails to disclose "a first voltage-current conversion circuit that outputs a current having the same polarity as that of the constant current source when the switch is turned on, in which an input terminal is connected to an output terminal of the first differentiation circuit, and an output terminal is connected to an input terminal of the laser diode drive current amplifier" (claim 3). The remains 4-9 are allowed by virtue of their dependencies on the independent claim. Hence, the examiner has allowed claims 3-9.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
